

Musical Theater

For all ability levels! During our 14 week sessions, students will work towards a performance for friends and family. They will be singing, acting and dancing in the production. We will also learn through acting and vocal games. Students will help with costuming as well as creating props and scenery for the production. The script will be chosen for the students in order to all to have an opportunity to shine!

Show Choir

During this class, students will have the opportunity to sing in groups as well as a solo. This is a performance-based class with students performing locally throughout the session. Krista and Heather will be teaching this class together.

Hip and Flip

This class will begin in October. For all levels, students will have fun learning hip hop moves and combinations while also working on tumbling skills in order to strengthen their skills and meet personal goals.
